

ECE3000 ECE Professional Seminar

Fall, 2015

**Department of Electrical and Computer Engineering
The University of Iowa**

Instructor: Prof. Gary E. Christensen

Office: 4324 SC

Email: gary-christensen@uiowa.edu

Seminar Meeting Time: 5 - 5:50 Thursday (with exceptions as noted)

Room: 101 BCSB (with exceptions as noted)

Course Requirements: You are expected to attend and participate in all scheduled class meetings.

Grades: To receive a grade of satisfactory in this course you must satisfy all of the following conditions:

- Miss no more than two classes
- Attend the Engineering Career Fair (including dressing appropriately and researching attending companies), 10/6
- Attend the Ethics in Engineering seminar, currently scheduled for 11/5
- Participate in your group ethics case study, currently scheduled for 11/19
- Pass the final exam, 12/10

Students who fail to meet the minimum requirements stated above will be assigned a grade of unsatisfactory.

Coming late by more than a few minutes to a class session does not qualify as participation. Please note that this provision for missing two classes is intended to accommodate the needs of students who must miss class due to sickness. It is not intended as a “free pass” for students who want to miss class for other reasons. At each class session, I will pass around a list of names of members of the class and ask you to sign your name to confirm that you attended and participated.

Academic Misconduct: The minimum penalty for academic misconduct is failure in the course and a letter in your permanent record in the Dean’s office. Signing the participation sheet for a friend qualifies as misconduct. You are responsible for misconduct committed on your behalf, so take whatever steps are necessary to make sure that you do not benefit from misconduct committed by others on your behalf.
