

Report of Quiz 4

1. Summary

| | Number of Students |
|----------|--------------------|
| Total | 171 |
| Attended | 160 |
| Missed | 11 |
| Makeup | 0 |

2. Comments

- 1) The average is significantly lower than previous years.
- 2) Many students did not use the correct assumptions for the Bernoulli's equations (i.e. assumed $p_1=p_2$ or $v_1=v_2$ and did not assume $z_1=z_2$ or $v_2=0$).
- 3) Many students did not have the correct equation for the monometer.
