

EFD 1 grade report

Nine students have not submitted a lab report, of which, four students did not attend the lab. The EFD1 grade average is 83.3 which is lower than previous years. However, if those nine students' grades are not included, then the average would be 85.9 which close to previous years. Figure 1 shows the comparison of this year average to previous years. Figures 2 and 3 show the students score distribution and average score per section respectively.
