55:033 Software Design

Final Exam
Fall 2006

Instructions – READ CAREFULLY!!!

All pages of this question booklet must be handed in with your exam. You must write your name and student id number on this question booklet. Failure to do either of these will result in a 0 for the exam and failure of the course.

This exam contains 115 questions. You will be graded from a maximum possible score of 90 points. There is one point added for every question answered up to a maximum of 90. One point will be subtracted from that total for every incorrectly answered question.

Score = \( \min(90, \text{number answered}) - \text{number incorrect} \)

Examples:
90 answered, 90 correct - Score = 90/90
90 answered, 85 correct - Score = 85/90
100 answered, 95 correct - Score = 85/90
85 answered, 85 correct - Score = 85/90

You may write on this booklet, but only your scanned answer sheet will be graded.
