

Electrical & Computer Engineering Graduate & Professional Seminar

Grabbing the Globe Lecture Series

SPEAKER: Andrew Huan

Schneider Electric

Raleigh, North Carolina

Thursday November 12, 2009 4:30-5:20 PM Room 2229 SC

BIO

Engineering alumnus Andrew Haun (BS 1984 electrical engineering) is engineering director, electronic and software engineering for Schneider Electric, Raleigh, NC. He leads more than 90 engineering professionals and is responsible for a \$10 million budget for North American and global electronics product development.

Haun has spent his entire career with Schneider Electrical. Previously, he served as manager – electronic engineering, staff electronic design engineer, and electronic design engineer at Schneider Electric’s Cedar Rapids, IA plant.

He is an inventor/co-inventor for 20 U.S. patents, and co-author of an NFPA Journal article in September/October 2008, titled “Why AFCI’s? – How combination arc-fault interrupters enhance electrical safety in the home.”

Huan serves as a member of the College of Engineering Advisory Board.

He also received an MBA degree from Duke University.

Individuals with disabilities are encouraged to attend all University of Iowa-sponsored events. If you have a disability that requires accommodation to participate in this program please contact the Electrical and Computer Engineering Department in advance at 335-5197
