## 2. Comments

- 1) Forgetting to answer for the location of the force components
- 2) Using incorrect formulas or values for finding the location. Some students recalled the correct equation, but used completely incorrect values for the variables.
- 3) Including an additional force in the calculation of the vertical component (i.e.,  $F_v = F_1 + W$  instead of simply  $F_v = W$ )
- 4) Using  $F_v = PA$  instead of  $F_v = W$  for the vertical component
